North Carolina Down Syndrome Alliance

New & Expectant Family Support

North Carolina's First Call Program provides expectant parents with educational materials, resources, and connects them with a trained parent mentor. NCDSA offers a welcome baby bag for new parents that includes books, educational materials, resources, and gifts for the new baby and parents. NCDSA offers in home visits and mentoring opportunities to build positive connections among new families. NCDSA's goal is to offer Prenatal Info Kits to all parents receiving a prenatal diagnosis and a New Baby Welcome Bag to all new families in North Carolina. The need for Prenatal Info Kits has greatly increased with advancements in prenatal testing. Your help is needed now, more than ever, to ensure expectant parents receive crucial resources and support. Together we can support expectant families and welcome new babies to our community.

Medical Outreach

NCDSA is a resource to the healthcare community and keeps professionals updated regarding:

- Best practices of delivering an unbiased, accurate, and compassionate Down syndrome diagnosis
- Current information on the quality of life for people with Down syndrome
- Healthcare guidelines developed by the American Academy of Pediatrics specifically for individuals with Down syndrome

Recently, there has been an increase in the number of new families. Our referral outreach is working, but so much work remains. With advancements in prenatal testing, expectant families are receiving a diagnosis earlier than ever. It is vital that healthcare professionals provide parents with an accurate picture of Down syndrome and the opportunity to connect with the NCDSA. In the next year, we will deliver a medical outreach information packet to every obstetrician and pediatrician in North Carolina. Together we can help healthcare professional change the lives of individuals with Down syndrome.

Education

Educating parents and teachers how individuals with Down syndrome learn is vital to their success. School districts generally do not have the resources to educate teachers specifically on the learning styles of students with Down syndrome. We are working to fill that gap. Our goals for the coming year include developing an educator's handbook and free training videos available on the NCDSA website. We will continue to expand our seminars for parents and educators. Together we can ensure that people with Down syndrome reach their potential through education!

Advocacy

Advocacy and awareness are central to increasing opportunities for people with Down syndrome and dispelling misconceptions of Down syndrome. We organized the first Down Syndrome Advocacy Day at the North Carolina General Assembly. Families joined to educate legislators on issues that matter to our community. In addition to this annual event, we work throughout the year to ensure that decision makers understand how their work impacts people with Down syndrome. Our goal is to come together annually to raise awareness of people with Down syndrome through advocacy!
